Call The Doctor

Mulle: you feel so weak
 Chor: back likes to tweak
 Mulle: unmotivated
 Chor: your spirit is faded
 Mulle: you need high voltage
 Chor: forget your old age
 Mulle: you have to join us
 Chor: to kill your paranoias

Refrain:

Chor: call the doctor – call the doctor
 Mulle: three chords for healing
 Chor: call the doctor – call the doctor
 Mulle: to feel your heart beating - again

Mud roads

Riding on the hard side, hittin hole by hole

Gotta be from tough tribe, skin now dark like coal

Shocks are overheating, tires keep on screaming

Wheels forever beating, but you feel like He-Man

Flying mud to all sides, when you leave the tarmac

Take one of the best rides, never look back

It is your best pleasure, riding bike the hard way

Going just wherever, living tough is what you say

Ref: Mud roads, dirt tracks, mud roads – that's what I love

Travelling all countries, campgear on your back

Try avoiding donkeys, travel off the beaten track

It is your best pleasure, riding bike the hard way

Going just wherever, living tough is what you say

Another morning

Waking up has never been so nice,

Waking up has never had atmosphere

since I woke up next to you, right here

want it again, not just once or twice

You woke up something sleeping in me

Something was hidden for many years

bring out the good in me, bring me to tears

watching you breakfast makes me want more

Ref

Another morning

I want another morning with you

Another morning

I want another morningwith... you

Where `ve you been before, why do you wanna go

Just as I'm dreaming up our life you tell me no

Will I behold the love you showed me yet

Or is just one night stand to regret

You won't have me

Large brown eyes, nice firm ass

a smile to melt, morals to guess

you flirt with the guys breaking some hearts

take home your choice of men without ...

Ref: You can have everyone, everyone, but you - you won't have me

You can have everyone, everyone, but you - you won't have me

Your smile is just fake, your charm made up

you make up perfect, no men to stop

you from having fun from breaking hearts

take home your choice of men without...

Shout it out

Such a nice guy, such a nice smile

dance with him chat for a while

one more dance, one more drink

wake up groggy your clothes stink

You don't know this room your vagina hurts

Your head feels like a Steinbruch - no words

you don't remember how you came here

wanna shout out this creeping up fear

Refrain

Shou, Shou, Shout it out

Tell, tell, the world about

what's been done to you

what you been put through

You feel like shit and you are abused
depressed and no hot shower will soothe
this feeling of unworthiness and dirt
But you ain't alone, just take my word

He broke your will used you like meat
K.O.-drops had made you weak
There was no lust there was no pleasure
for you this night changed things forever

You lost your trust in men and love
He made a zombie out of a dove
But don't give up, overcome your shame
world worlds gotta learn girls are no game

Go hustling for me

Hey girl, we've been together for so long
Hey girl, two weeks now and there's nothing wrong
Hey girl, it's time for you to proof your love
Hey girl, don't you want to be my little dove

You'll see my heart it's not difficult
Just spread your legs for someone else
You'll see my heart you'll earn some mo - ney
Ten percent of it - for you, my honey yeah

Ref: Go hustling for me

Go Go hustling

V2:

Oh babe, don't complain about hardships in life

Oh babe, you just got a little bit to strife
Oh babe, I'll love you forever you'll see
Oh babe, if you keep walking streets for me
Ref

Porno radio

late at night you might be lonely
late at night you might be horny
late at night you want to tune in
late at night you hear me groaning

V2

I got my show to make you hot
I got my show to turn you on
I got my show to keep you listening
I got my show to to feel like a king

Ref

tune in to my show, to porno radio, porno radio
tune in to my show, to porno radio, porno radio

Every night you hear me sighing
every night you will be wanting
Every night you hear my lust
you'll never get me, just you trust

V4

All my listeners I abhor
Fanmails I don't care for
I just want you to get a hard-on
It's my job to on the microphone

Drill me

You're my dentist but you're - fucking sexy

Lying on your chair - my thoughts become dirty

You move with grace - haven't seen before

Lying on your chair - makes me want more

Ref:

Drill me (Backv.) - I just love it

Drill me (Backv.) - I want more of it

Drill me - Chill me (Backv.)

everything you want to

V2

A female dentist, young, pretty and clever

Makes my dentist-date a real pleasure

The pain in my tooth is soon forgotten

Watching her moving turns my thoughts rotten

V3

Lovingly I watch her drill in my mouth

But I'll never date her, won't come to my house

What's left to me is to gaze and admire

Appointment's too short but I am on fire
